Easy to Moderate Rides

Deer Path Park*: Offers 3 miles of trails including the fitness trail. Trail surface is all sod. Rated an easy to moderate ride due to the consistently changing slope.

Echo Hill Park: Offers over a mile loop that has some moderately difficult slopes. Trail is mostly compacted ground.

Hoffman Park*: Offers over 4 miles of trails that were old farm roads. The main challenge at this park is the slope from the parking area to Manny's Pond Road, creating an uphill climb at the end of the ride. Trail is mixed between paved surfaces, old stone roads, and compacted ground.

Sourland Mountain Preserve: Offers a loop trail that constantly changes grade. The surface is compacted ground with some exposed rock. The South Loop Trail offers a moderate challenge at the stream crossings that require riders to carry their bikes.

Improved Trails

These easy rides were rail lines and have been adapted to multi-use trails. The surface is a compacted quarry dust.

Columbia Trail*: Offers 7 miles of converted railway between High Bridge Boro and Vernoy Road in Lebanon Township.

Landsdown Trail*: Offers 1.5 miles of converted railway between Clinton Boro and Lower Landsdown Road in Franklin Township. Bikers can connect to the State's Capoolong Creek Trail to Pittstown.

Pine Hill Section of South Branch Reservation*: Offers a short but moderate ride along a cliff face overlooking the river. The trail is compacted ground and constantly changes grade.

Round Mountain Section of Deer Path Park*: Offers an easy to moderate ride through woods and fields that ascends up and down the mountain side. The Peter Buell trail is a rocky trail that traverses over to Foothill Road and is a challenging moderate ride at some points.

Teetertown Preserve*: Offers rides around the fields in the Mountain Farm Section and a woodland challenge through the Ravine Section. Both areas constantly change in grade with the Ravine Section being the more challenging.

Miquin Woods: The main trail through the park (0.7 miles) was an old driveway, lending to a relatively easy ride. The side trails are more challenging and constantly

Difficult Rides

Cushetunk Mountain Preserve: Offers about 3 miles of trails. The climb to the ridge trail is a steep challenging ride. The trail is compact ground.

Point Mountain Reservation*: Offers about 2 1/2 miles of trails along the river and fields. Biking along the Ridge Trail is prohibited. Along the river, the trails are compact ground, and along the field edges, they are sod.

Short River Rides

While these trails are designed for fishing access along the South Branch of the Raritan River, bikers are welcome to use them as well.

Stanton Station Section*: Offers a moderate ride along a cliff face, before ending at a popular fishing hole. Trail surface is compacted ground.

Sunnyside Picnic Area*: Offers an easy trail along the river. Trail switches between sod and compacted ground.

Wings Section*: Offers a long walking trail along the river with some moderate points. The trail is a mix of sod and compacted ground. Due to its length and some slopes, the trail is rated an easy moderate.

**The trail can also be used by horses.*

It is the policy of the County to provide reasonable accommodations to persons with disabilities upon advance notice of need. Persons requiring accommodations should make a request at least two weeks prior to program attendance.

How to Safely Share the Trail with Others

- A good general rule is “wheels yield to heels, yield to horses.” (Bicycles yield to both and pedestrians yield to horses).

- Horses have a field of vision that is nearly 360-degrees. For this reason a sudden movement from behind can frighten them.
- Pass horses slowly, with care. If the animal becomes frightened, follow the rider's instructions.
- All shared-use trail users should travel on the right and pass on the left.
- When approaching others, always make your presence known. When passing from behind, use a bell or audible warning signal and call out “passing on your left” or “on your left.”
- Wear brightly colored clothing so others can see you at a distance.
- Travel at a safe speed, especially where visibility is limited or slope requires it.
- Don't stop on the trail, but pull off if you need to stop.
