

OVERVIEW OF EDUCATIONAL STATISTICS IN HUNTERDON COUNTY

The Hunterdon County Office of the New Jersey State Department of Education functions as a state-county coordinating agency charged with educational leadership in the county.

The county (437 square miles - 26 municipalities - 128,349 population per 2010 census) has 27 school districts (3 regional high school districts, 1 K-12 regional school district, 1 vocational school, 1 alternative school, 1 regional elementary district, and 20 elementary districts) with approximately 17,703 pupils.

The 27 school districts include 47 school buildings and employ approximately 2,648 full instructional, supervisory and administrative positions. Local school budgets prepared for the 2023-2024 school year total \$496,377,999.

All school districts continuously engage in curriculum improvement and professional learning for staff. With offerings in alternative and special needs education, adult education, new courses and methodologies in the general curriculum, facility planning, and vocational-technical education, the programs and practices are regularly reviewed and revised to align with 21st century learning goals and improved student outcomes.

A map locating the Hunterdon County school districts can be found on the inside back cover of this directory.
