

Dear Fall Bow Hunter:

Please take a moment to complete your hunting survey. This survey pertains to the **2023 FALL BOW** season only.

The survey asks how many days you hunted during each season; for this question, treat every day you hunted as if it were a FULL DAY, even if you did not hunt the entire day. Please return card even if you did not hunt. Also, you are responsible for providing the harvest results for any “alternate” hunters that are listed on your permit.

***Surveys must be completed and returned on time. Hunters who fail to do so will not be able to purchase a permit for the following season until the 3rd day of permit sales. (The day after they go on sale for out-of-county hunters.)**

Please complete the surveys accurately. We will compare random survey responses with NJ Fish and Wildlife to verify harvest information. **Surveys must be returned by March 1, 2024.**
